“Closing The Science Education Divide...”

THE 16TH ANNUAL BLACK HISTORY MONTH STEM FIELD TRIP

Celebrating African-American Scientists and Inventors Through Live STEM Demonstrations

Event Description

This field-trip event is designed to introduce, highlight and reinforce student's understanding of the important contributions made to Science, Technology, Engineering, and Mathematics (STEM) by African-Americans. The presentation consists of live science demonstrations, where each lesson features a biographical look at an African-American scientist and/or inventor who influenced the science behind the experiment. The Primary goal of this field trip is to provide students with a foundation on how STEM has evolved over the years with the help of African-Americans. Another goal is to cultivate more scientifically literate students and return the United States to the #1 ranking in the world in STEM.

The show is produced and presented by award winning Master Scientist Grand Hank. The founder and president of Grand Hank Productions, Inc. a multimedia-education company. He is former research scientist of Johnson & Johnson Family of Companies. Grand Hank is a successful African-American sciencepreneur and one of the leading STEM presenters in the United States.

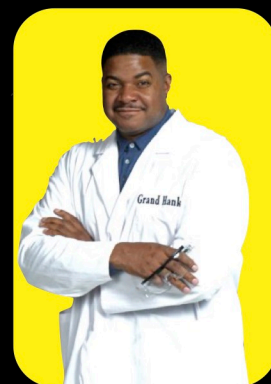

Event Format

The format uses “Multiple Intelligence” and a multimedia approach that integrates PowerPoint, video projection, storytelling and music with live STEM demonstrations for **total audience participation**.

Event Outcomes

- Celebrate the important contributions made to STEM by African-American scientists and inventors...
- Provide students with a novel approach to learning STEM through event-based instruction...
- Improve student's self-esteem, and perceptions towards careers in STEM...
- Provide students with an out-of-classroom event-based learn
